Summary

I have a degree in Systems Analysis and Development from Cruzeiro do Sul University and I study UX / UI Design from Alura.

I am specializing in UX / UI Design, Design Thinking and WEB Accessibility, my goal is to always develop processes to reach creative solutions and create a positive impact, I am always focused on the client's needs, and I also have proficiency in web development.

I currently work at Tesla as a Project Coordinator, managing projects for institutional websites, e-commerce, intranet and extranet platforms.
